# INTRODUCTION

The State Library of Ohio compiled the STATISTICS OF OHIO LIBRARIES from information supplied by Ohio academic, institution, public and special libraries for calendar year 1990.

The publication includes data from all types of libraries as well as Rankings of public and academic libraries. The Rankings format has been revised for 1991. The Public Library Overall Statistical Rankings section lists all public libraries alphabetically by city and shows the cities' rankings in seven categories. Each category is then listed separately, ranking the libraries in order.

The county auditor's offices reported the distribution of the Library and Local Government Support Fund data for comparison with the information received from the Ohio Department of Taxation and the 250 public libraries in Ohio.

The Ohio State Department of Education's Ohio Educational Data Systems School Building Survey (OCCD-7L) collected statistics on school library media centers (for school year 1989-1990). The Department of Education's Division of Computer Services and Statistical Reports compiled and forwarded these statistics to the State Library.

Arrangement of information is generally self-explanatory; footnotes have been used as needed. A dot leader (...) in a data column indicates a non-response. In addition, a glossary is provided in the last section of the publication.

Thanks are expressed to librarians, clerk-treasurers, auditors, school principals and others who have supplied data for the STATISTICS OF OHIO LIBRARIES.

Your comments and notes of omissions or errors are invited. Please call 1-800-686-1532.
